2. About 80 trucks, about 25 guns of about 120 mm caliber and about 30 mortars on mounts were parked about 700 feet from the HAYMASKER RR station on 11 June 1949. No other details could be learned because of the distance.

25X1A Comment:

The 17th Gds Mecz Div and presumably also component units of GHQ units of the Central Group of Forces from the Austro-Hungarian border area, are assumed to be stationed at the HAYMASKER troop training grounds since March 1949. According to information from this area and the above report from HAYMASKER, it is to be assumed that the concerned troop units are still at the troop training grounds.
